

Clinical & Scientific Program

AMERICAN ACADEMY OF OROFACIAL PAIN

AAOP 2024

48th Clinical and Scientific Meeting

*Management of Orofacial Pain:
Weighing the Evidence*

May 9-12, 2024

Talking Stick Resort | Scottsdale, Arizona

Message from the 2024 Program Committee

The American Academy of Orofacial Pain (AAOP) is honored to invite you to its 48th clinical & scientific meeting on May 9-12, 2024 at the Talking Stick Resort in Scottsdale, Arizona. As the official sponsoring organization of the dental specialty of Orofacial Pain, the AAOP is the premier professional academy dedicated to alleviating the suffering of patients afflicted with painful disorders of the jaw, mouth, face, head and neck. Our meeting in Scottsdale presents dentists and other healthcare professionals with a unique opportunity to tap into the interdisciplinary knowledge of dental specialists, physicians, physical therapists, and researchers whose expertise is dedicated to treating pain and promoting patient wellness.

The theme of our meeting – “Management of Orofacial Pain: Weighing the Evidence” – reflects AAOP’s commitment to provide attendees with information that is up to date, scientifically supported, and clinically relevant. We invite you to review the world-class speakers and the schedule of presentations, which includes sessions on temporomandibular disorders, headache, dental sleep medicine, pain neuroscience education, and more. We are confident that you will leave this meeting empowered with knowledge and tools to better serve your patients and to bolster your practice.

We encourage you to register as soon as possible by visiting our registration page at aaop.org. Room **reservations** for the Talking Stick Resort are available at a discounted rate to meeting attendees. We welcome submissions for abstracts to be presented at the meeting; **submissions** are due by February 15, 2024.

We look forward to seeing you in Scottsdale!

2024 Annual Scientific Meeting Committee:

Isabel Moreno Hay, DDS, PhD, ABOP, ABDSM
Co-Chair
2024 Annual Scientific Meeting

Thomas Weber, DDS, MS
Co-Chair
2024 Annual Scientific Meeting

Jennifer Bassiur, DDS
Eveline Erni, PT, MA, CMA, CCTT, CODN
Alberto Herrero Babiloni, DDS

**AMERICAN ACADEMY
OF OROFACIAL PAIN**

General Information

AAOP Mission & Orofacial Pain Specialty

The American Academy of Orofacial Pain, an organization of dentists and other health professionals, is dedicated to alleviating pain and suffering through the promotion of excellence in education, research, and patient care in the specialty of orofacial pain and associated disorders.

Orofacial Pain (OFP) is the specialty of dentistry that encompasses the diagnosis, management and treatment of pain disorders of the jaw, mouth, face and associated regions. The specialty of Orofacial Pain is dedicated to the evidenced-based understanding of the underlying pathophysiology, etiology, prevention, and treatment of these disorders and the improvement of access to interdisciplinary patient care.

Who Should Attend?

All interested dentists, physicians, physical therapists, researchers, mental health care professionals and other practitioners who diagnose, manage, and treat orofacial pain disorders.

ADA C.E.R.P.® | Continuing Education Recognition Program

American Academy of Orofacial Pain is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

American Academy of Orofacial Pain designates this activity for 27.0 continuing education credits.

Conference Clinical and Academic Learning Objectives

During the meeting attendees will:

1. Learn and understand about the Orofacial Pain (OFP) dental specialty
2. Learn about and understand the relationship between OFP and headaches
3. Understand the diagnosis and management of pain in adults, adolescents, and children
4. Explore the role of the dentist in sleep medicine and understanding of sleep disorders
5. Explore the role of the dentist in patient wellness
6. Learn about the National Academies report on TMD
7. Explore the role of bruxism with regard to pain and wellness
8. Develop an understanding of access to care issues in orofacial pain practices

General Information

How To Register

Register for AAOP 2024 online through the AAOP website. Visit aaop.org to register quickly and easily. You may also register by completing the form on page 15 and emailing it to office@aaop.org.

Your main registration includes:

- Admission to plenary scientific sessions
- Daily continental breakfast
- Refreshment breaks
- Lunch on Friday and Saturday
- Admission to the President's Reception on the evening of Friday, May 10
- Each Lunch and Learn session on Friday, May 10 and Saturday, May 11

Separate tickets are required for each of the following sessions:

- Each pre-conference workshop on Thursday, May 9

Guest registrations are also available, allowing admission to the President's Reception and to the foyer area of the conference.

Hotel Location & Accommodations

Talking Stick Resort
9800 E Talking Stick Way
Scottsdale, AZ 85256

Hotel reservations are available now directly through the hotel's website. Click on the following link: <http://bookings.ihotelier.com/bookings.jsp?groupID=4075982&hotelID=73351>

The link is available only for conference meeting nights. If you need to book any before or after nights, please contact the Reservations Department at 1-866-877-9897 and use the booking ID 18879 or the group name "AAOP 2024 Annual Scientific Meeting" to receive the group hotel rate.

Exhibits

Educational and informational displays of companies relevant to the treatment of orofacial pain and/or your practice will be available for viewing and interaction during the conference.

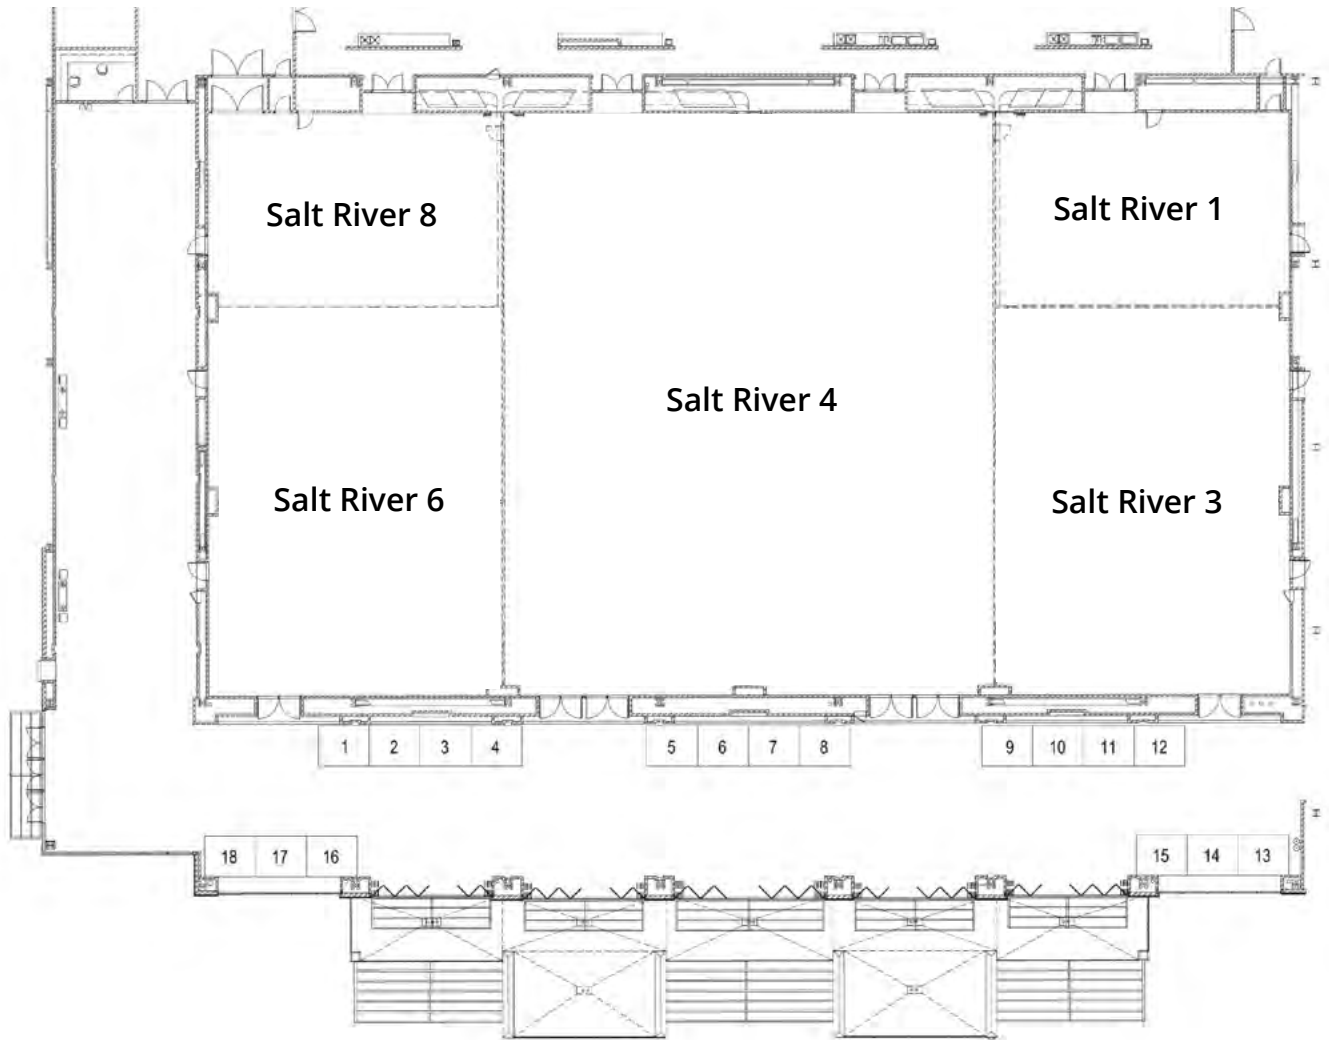

Questions

If you have any questions or need additional information, contact the AAOP office at office@aaop.org.

Pre-conference Workshop

Orofacial Pain Introductory Program

8:00am – 5:00pm | Course directors: Fernanda Yanez, Seema Kurup

Summary

The Orofacial Pain Introductory course provides a basic overview of the evaluation, diagnosis and management of the most common Orofacial pain conditions encountered in the general practice setting. It provides an opportunity for clinicians to recognize different clinical scenarios and provides tools for identifying proper referral to Orofacial pain specialists.

8:30am – 8:55am

Welcome and Introduction to Orofacial Pain
Seema Kurup

12:00pm – 12:45pm

Refractory Tooth Pain “Think Outside the Box”
Prathishtha Mishra

9:00am – 9:40am

Anatomy and Imaging of the Masticatory System
Beth Groenke

12:45pm – 1:00pm

Question & Answer

1:00 pm – 2:00pm

Lunch Break

9:45 am – 10:30am

Interview Taking and Physical Examination of the OFP Patient
Marcia Rojas

2pm – 2:45 pm

Case Presentation
Seema Kurup

10:30am – 10:45am

Question & Answer

2:50pm – 3:40pm

Tools For Initial Management of Patient With Temporomandibular Disorder
James Hawkins

10:45 am – 11:00 am

Break

3:45pm – 4:15pm

Oral Appliance Therapy for TMD
Alex Vaughan

11:00 am – 11:55am

The Art of Diagnosis: Exploring Painful and non-Painful Temporomandibular Disorders
Fernanda Yanez

4:15pm – 4:30pm

Question & Answer

 Ticket required to attend

Pre-conference Workshop

The Neuroscience of Pain: Clinical Application Strategies for the Management of Persistent Pain

9:00am – 4:00pm | Course director: Eveline Erni

Summary

With high rates of chronic pain and the opioid epidemic, various strategies are being explored to help patients with chronic pain. In the last 20 years, pain neuroscience education (PNE) emerged in rehabilitation as an evidence-based, clinically applicable approach to help people with chronic pain. PNE aims to teach patients more about their underlying biology and physiology of their pain experience, using metaphors, examples, and images. To date, a dozen meta-analyses and systematic reviews have shown strong evidence for PNE to positively influence pain ratings, disability scores, limited movement, fear-avoidance, pain catastrophizing and healthcare utilization. Additionally, when PNE is combined with behavioral and movement-based treatments (PNE+), it yields even superior results. PNE literature is now becoming common-place in medical journals, and it is proposed that ideally all healthcare providers would collectively use PNE to provide evidence-based, multidisciplinary care for people with chronic pain. First, this lecture aims to update medical providers on the latest neuroscience of pain, followed by a session describing how PNE, along with other non-pharmacological treatments can help people in pain. A key part of the session will delve further emerging research that shows how interaction, especially words used by healthcare providers can increase pain (WordsHARM), but also, more importantly strategies to use to decrease fear, anxiety, catastrophizing and ultimately...pain (WordsHEAL). This session does not only apply to chronic pain, but all phases of pain and a must for all medical providers seeking to decrease pain, disability and suffering of those experiencing pain.

9:00am - 10:30am

The Neuroscience of Pain

Adriaan Louw

1:15pm - 2:45pm

Words that Harm and Words that Heal

Pre-conference Workshop

Introduction to the Management of Sleep-related Breathing Disorders with Oral Appliances

9:00am – 4:00pm | Course director: Sherwin Arman

Summary:

This pre-conference course is designed for dental professionals who plan to introduce sleep apnea treatment for their patients. It is a full day course that starts off with the basics: definitions, epidemiology of sleep-related breathing disorders (SRBD), and the role of dental treatments in the management of sleep apnea. The course will then move into explanations for the pathophysiology of SRBDs and phenotyping of OSA patients who are candidates for treatment with dental appliances.

The afternoon session will involve “hands on” teaching and practice for the examination and treatment of the OSA with the most used dental appliances.

9:00am - 10:00am

Course Introduction

Jeff Shaefer

10:00am - 11:00am

Understanding Sleep Apnea

Ashkan Saadi

11:00am - 11:15am

Coffee Break

11:15am - 12:00pm

Management of Obstructive Sleep Apnea

Steven Bender

12:00pm - 1:00pm

Oral Appliances

Sherwin Arman

1:00pm - 2:00pm

Lunch Break

2:00pm - 4:00pm

Hands-on Instruction for Dental Treatment of SRBDs

Facilitators: Jeff Shaefer, Sherwin Arman, Aurelio Alonso, Ashkan Saadi and others from AAOP Sleep Committee

4:00pm - 4:30pm

Pre-conference Workshop

Orofacial Pain Private Practice

9:00am – 4:00pm | Course director: Nojan Bakhtiari

Summary:

The Orofacial Pain (OFP) Private Practice course provides information that will help new and established OFP practitioners establish and maintain a financially successful OFP practice that is committed to the highest level of quality of care. Presentations will cover practice management models that will review private practice and hospital practices, transitioning from general to OFP practice, and in-house OFP services for multiple referring group practices. Start-up, corporate organization, supplier, and working with professional advisors will be covered.

9:00am - 9:30am

Introduction & Overview

Nojan Bakhtiari

9:30am - 10:15am

Practice Model 1: Hybrid OFP Private Practice and Hospital-affiliated OFP Practice

Katayoun Omrani

10:15am - 11:00am

Practice Model 2: Transitioning from General Dentistry to an OFP Private Practice

Michele Schultz-Robins

11:00am - 11:15am

Question & Answer

11:15am - 11:30am

Break

11:30am - 12:15pm

Practice Model 3: Start-up Orofacial Pain Practice

Nojan Bakhtiari

12:15pm - 12:30pm

Question & Answer

12:30pm - 1:30pm

Lunch

1:30pm - 2:15pm

Practice Model 4: Providing in-house OFP Services in Multiple Group Practices

Brijesh Chandwani

2:15pm - 3:00pm

Corporate Structuring and Working With Professional Advisors

3:00pm - 3:45pm

Dental Supplier Perspective on the Nuances of an Orofacial Pain Practice

Alan Withall
